## Introduction

## Community Conservation Assistance - Private Landowners

# NOTE: ONLY PRIVATE LANDOWNERS are to apply for Community Conservation Assistance (CCA) using this online form.

#### **Overview of eligible projects:**

<u>Community Conservation Assistance program (CCA)</u> provides assistance to groups and individuals within Council's <u>Community Conservation Partnerships program (CCPP)</u> to undertake on-ground environmental restoration.

This assistance allows Council and community environment groups to collaboratively deliver projects within priority biodiversity areas that would otherwise be difficult for groups or individuals to undertake.

Groups and individuals that are eligible to apply are: Private landowners who are members of the <u>Wildlife Conservation Partnerships program</u> (WCPP - Land for Wildlife).

#### **Re-submission of previous projects:**

If you have an eligible project that was unsuccessful from a previous CCA round, you are welcome to re-submit that project. You will still need to complete the questions in this application form and to consult with your relevant Wildlife Conservation Partnerships Officer.

#### Projects which are NOT eligible:

This assistance cannot be used for:

- any activity that is the legal responsibility of the landowner (e.g. control of declared weeds, response to compliance notice on private land)
- payment for specialist advice such as hydrologists or ecologists
- replacement of culverts or other engineering works
- work on non-Council land except for private landholders that are members of the Wildlife Conservation Partnership program
- work on private land listed for sale
- work on state or federal land.

## Funding Amount and Closing date for application submission

## **Funding Amount**

Applicants can apply for up to \$20,000 worth of assistance per project.

## Closing date: midnight, Tuesday 25th February 2025.

## Applicant details

\* indicates a required field

Before you commence this application:

#### Please read the CCA Fact Sheet.

Some fields in this form are mandatory and will need to be completed to enable you to submit your application. An error message will highlight which fields require completion. Questions that are not relevant to your application will be greyed-out.

> For your application to be assessed and before commencing the on-line application, you MUST have contacted your Wildlife Conservation Partnership Program (Land for Wildlife) Council Officer regarding your proposed project, If you have not discussed your project with the relevant Officer, your application will be deemed ineligible and not be considered for funding.

This is a requirement for both new and resubmitted projects.

Your Wildlife Conservation Partnerships Officer will ensure your proposed project meets with the priorities for the site and includes best management practices. They may also need to visit the project site, so please allow enough time during the application preparation for this to occur. They will also be able to provide you with guidance for any questions you have regarding the information required in this application form.

If you are unsure who your Council Wildlife Conservation Partnerships Officer is, please contact Brisbane City Council on (07) 3403 8888.

Name of the Wildlife Conservation Partnerships Officer, who you have discussed the project with? \*

Have you read and			
understood the CCA Fact			
Sheet? *			

Yes
 No - you must read and understand the Fact Sheet content prior to completing this application form.

Must be a Wildlife Conservation Partnership Program Officer

#### Points to consider

#### Please note the following points:

- If you are considering selling your property within the next 18 months, please do not apply.
- If you have any outstanding building or environmental compliance matters with Council, you are required to disclose this at the time of your application.
